

## Time of Our Lives

## Puddle of Mudd

Shallow heart, deep inside  
Dig your grave, live your life  
Remember when we stole your mama's car that night  
In the middle of the summer time  
Knew it was wrong, but it just felt so right

Everybody was having the time, time of our life  
We were having the time, time of our life  
We were getting so

Molly know when you're getting high  
It's hard to believe that time has passed us by  
Remember when we stole your mama's car that night  
In the middle of the summer time  
Knew it was wrong, but it just felt so right

Everybody was having the time, time of our life  
We were having the time, the time of our life  
We were getting so high, out of our mind  
We were having the time, time of our life  
We were getting so high

Wish that I could turn back time  
Wish that I could be alive  
Can't excel inside my head  
Lift you up my wounded friend

Time of our lives  
We were getting so high  
Out of our minds

We were having the time, time of our life  
We were having the time, time of our life  
We were getting so high, out of our mind  
We were having the time, time of our life

Wish that I could turn back time  
Wish that I could be around  
Time, of our life
