

## Cashed In

Pulley

For what it's worth, I've walked miles  
And I've seen the sun go down.  
Played my share of dues,  
Yet you still want to put me down..  
Started on the bottom tell me  
Why I feel here again.  
It was at my expense, now you're cashing in.  
Make way for the boys in your town today,  
Dig in your pockets, they've got a lot to say.  
Look up on the wall,  
They'll have some shirts for sale.  
Another week has passed  
Can you keep up with the brand new scene,  
The music's changing  
With the constant tapping of my feet.  
Play it faster, play it slower,  
You still don't know,  
The music's not so important to you,  
It's what you're makin' off the show.  
Starting from the bottom again.
