

Intention (Nothing Can Stop Us)

Pulsedriver

Nothing, nothing, nothing, nothing can stop us

Nothing, nothing, nothing, nothing, nothing, nothing, nothing

Nothing can stop us

We'll win it in the long run

And the dues we had are gonna fade away

Nothing can stop us

This wind could never drop us

You know it could get better in just another day

Nothing's gonna stop up

[Incomprehensible]

Of the cold season it still looks this way

Nothing can stop us

This love will always rock us

And this is all that I should need to say

Nothing, nothing, nothing, nothing can stop us

Nothing can stop us

We'll win it in the long run

And the dues we had are gonna fade away

Nothing can stop us

This wind could never drop us

You know it could get better in just another day

Nothing, nothing, nothing, nothing can stop us
