

## Lynndie (She-Wolf of Abu Ghraib)

### Pungent Stench

Hey boys have you heard the news  
There's a new girl in town  
She like's to play with your cock  
If your skin is brown  
Some might say she's a dyke  
But to me she's a dame  
Domination is her fascination  
And Lyndie is her name

She'll put you on a leash  
And drag you around the floor  
And pound a broom stick  
All the way up your back door  
Gang bang with the chain gang  
'Cause there is no taboo  
She loves to strip you down  
And smear your body with her poo

Vulgarized - sodomized - i confess  
Tie me up - knock me down - merciless

Smack, slap, torture, bust  
Sex, joy, pleasure, lust  
Whips, dogs, wire, chains  
Sniff your panty stains

Leash girl when you come for me  
Would you be so kind  
Make sure to bring you scourge  
And paddle my behind  
Then throw me on a pile  
With the other naked men  
Let loose your dogs on me  
And beat me up again

Vulgarized - sodomized - i confess  
Tie me up - knock me down - merciless

Burn my skin - break my chin - and distress  
Tie me up - knock me down - spank my ass
