

## Mortuary Love Affair

### Pungent Stench

The smell of death seasons the air  
Tonight's the night to leave my darksome lair the mortuary is my goal  
I have this craving for some rotten hole  
Excitement grasps my sickened brain  
And violent throbs my testicular vein  
I might be one repulsive creep  
Doing what I do when everyone's asleep  
Caress the sallow skin  
And taste the cavernous eyes with my tongue  
I like it when they perished young  
As an anal type of guy  
I know those dead assholes tend to be dry  
So I brought a tube of K-Y  
I screw her all night long  
Impale her anus and cunt with my dong  
And suck on her tits all along right after I am done  
I grab my carving knife for some more fun  
For I am just my father's son  
I slit her stomach and her bum  
Truncate her torso'til my arms feel numb  
My work is done when she is sliced  
I leave her disgraced body vandalized
