

Never Try

PUP

Every morning I keep sleeping
Cause in the nightttime, I'm dreaming of
My childhood schoolyard
I was breathing
Air on the street where I grew up

You tell me I should know better
You're probably right
It's just a phase
I'll come back ten years from now
And nothing will have changed

Cause I know I never try
Oh oh oh oh oh
And I wanna know
If I leave here alive
Oh oh oh oh oh

Am I too old
To be camping out
On my back porch
In the suburbs
Where I was born
You never made me happy

And I know I never try
Oh oh oh oh oh
And I wanna know
If I leave here alive
Oh oh oh oh oh

And even when I try
I can't recall
Faces of, anyone at all
And I dreamt of you in Montreal
In places I've never been at all

This isn't what I was hoping for
Apparently I would dream about you anymore
When everything you want has come and gone

Then you'll know I never try
Oh oh oh oh oh
And I wanna know
If I leave here alive
Oh oh oh oh oh
