

All In Good Time

Puracane

You're safe, no one knows you've been here
Escape, before it gets light
You say, no one would believe it
Afraid, that somebody might

No appetite
You've been defeated
All in good time
You're up again

You're safe, no one knows you're in here
Escape, before it gets light
Mistakes, sometimes we'll forgive them
You're wrong, even if you're right

No appetite
You've been defeated
All in good time
You're up again

And even when I sleep I still feel the same
All in good time
All in good time

Friend, you take care, of yourself, be aware
There's no light at the end of this
And you're so unprepared for
Let it go
You've been told

No appetite
You've been defeated
All in good time
You're up again

No appetite
You've been defeated
All in good time
You're up again
