

# Big Day

Puracane

Big day

Big day

It won't be too long  
And now I don't feel anything  
Are you still there at my side

Big flash

And I hit the ground  
And I can't see anyone  
Are you still there at my side

He used to hold my head in his arms  
Now someone else is keeping us warm  
It shouldn't be that long  
I don't hate anyone  
Anymore

Sinking, falling

Don't let it send you down  
Are you wasted, are you dying?  
Gods at work  
I'm waiting to come around  
Waiting naked for a sign

It shouldn't be that long  
I don't hate anyone  
Anymore

One day

You and I  
Reach out too high  
Someday  
We'll all be there

Big day

It won't be too long  
And now I don't need anyone  
I'm waiting here for my guide

Big sun to take me away

And now I don't hate anyone  
There's someone else at my side

He used to hold my head in his arms  
Now someone else is keeping us warm  
It shouldn't be that long  
I don't hate anyone  
Anymore, anymore, anymore, anymore
