

Went Away

Puracane

What does the big hand say?
We can go we can go back now
Ready to run again
Come on home
Come and see us

I was the one that went away

As soon as i get some pain
Shut me in, lock me inside now
Before I run again
Follow on, follow me back
Are you well? I'm alive, Just miles away
Are you well? I'm alive, Just miles away

look at the life i saved
All i hate holds me upside down
Until we get some rain
We all know the way to your hometown

I was the one that went away

Too tough, fought too hard
Come back never too much
I'm here again to pick up the pieces
How to find, find your smile
Make it work, make it mine
I walked away, I walked away

Are you well? I'm alive, Just miles away
Are you well? I'm alive, Just miles away
