

# Does This Only Happen When You Fall In Love

Pure Prairie League

What happens to you at night when you search for more  
Than you had before Your lover walked through the door

Once you were so satisfied deep within your soul  
But time has gained control and passions that burned  
Grow cold

You try to forget as you feel her coming near  
And tell her all the things she needs to hear

Does this only happen when you fall in love  
Does this only happen when you fall in love

Did you think she would shy away from your outstretched  
Hand  
Did you understand the meaning of love's demands

What stays but the memory of a sad goodbye  
Count the times you tried... remember but don't ask why

You find that it's true There is nothing you can do  
But look for brand new reasons to believe

Does this only happen when you fall in love  
Does this only happen when you fall in love

Does this only happen when you fall in love  
Does this only happen when you fall in love

You find that it's true There is nothing you can do  
But look for brand new reasons to believe

Does this only happen when you fall in love  
Does this only happen when you fall in love

Does this only happen when you fall in love  
Does this only happen when you fall in love

Does this only happen when you fall in love  
Does this only happen when you fall in love...
