

Love Me Again

Pure Prairie League

Whoa she was my first lover
Whoa and she helped me to discover
All the little things I never knew existed
She gave her love so freely and never resisted

Promise you will love me again
Promise you will love me again

Whoa she made love to me so right
Whoa and she held on to me all night

I wonder if she knows how much I really need her
I hope it's not the last time that I'll ever see her

So promise you will love me again
Promise you will love me again

So promise you will love me again
Promise you will love me again
Promise you will love me again
Promise you will love me again
