

Armistice

Pure Reason Revolution

Armistice, their brave dead hearts
Falls armistice, lost brave dead hearts

Armistice, their grave dead hearts
Falls armistice, the last waves depart

Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers

Us & them, the lost forgiven
Dawn again & back through oblivion

Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers

And we call armistice, so alone, in droves

Deliverance
Is this deliverance?
This is deliverance

Deliverance
Is this deliverance?
This is deliverance

Deliverance
Is this deliverance?
This is deliverance

Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers
Always love, always love, always lovers

Surrender if you feel this
Hammer the steel
No I can't let you go
And when I find you
That's when I'm gonna need you
We've bled the last
Our dead gone.
