

## Nimos & Tambos

### Pure Reason Revolution

All I've seen is all I dream  
See animals and tambourines - and all I can hear is light  
Feel the winds and wake the hour  
A morning kiss to have not far - and all I can see is  
night

Tree-lined in city colours, yeah he meant well  
she glances wide

He left the room where I was  
Hide the light, hide the light  
Too much to dream last night  
He left the room where I was  
Hide the light, hide the light  
Too much for waking eyes

Free to play, remember days and set the air, control the  
waves - and all I can hear is light  
Talk of rain through sleepy-times my chosen whims show  
I'm a child - and all I can see is night

Tree-lined in city colours, yeah he meant well  
she glances wide

He left the room where I was  
Hide the light, hide the light  
Too much to dream last night  
He left the room where I was  
Hide the light, hide the light  
Too much for waking eyes
