

Inside Out

pureNRG

You know me
I know You
I want my life to show you
This love is no secret and I don't wanna keep it
Locked up in my heart
I need you to turn me

Inside out
Upside down
Backwards, forwards
Turned around
Take this life
Here and now
Fill me up and pour me out
I want to feel the change within without a doubt
So turn me inside out

When I get distracted
Worn out and disconnected
So far from perfection
Point me in Your direction
Make this fire burn
Only You can turn me

Inside out
Upside down
Backwards, forwards
Turned around
Take this life
Here and now
Fill me up and pour me out
I want to feel the change within without a doubt
So turn me inside out

Lord, let me feel the change
Let your love pour down like rain
I want your love to change
Turn me inside out

Inside out
Upside down
Backwards, forwards
Turned around
Take this life
Here and now
Fill me up and pour me out
I want to feel the change within without a doubt
So turn me inside out

Inside out
Upside down
Backwards, forwards
Turned around
Take this life
Here and now
Fill me up and pour me out

I want to feel the change within without a doubt, so turn me inside out
