

It's Still Love

pureNRG

One more day of waking on this
Ball that spins in space
Seeing broken hearts and dreaming
On a brighter day

Searching deep inside
For the way that have been through
Finally found the answer
But it ain't nothing new

It's still love
That makes this world a better place
Just a touch from another heart and
Anything can change
We don't need to look that hard
To find a common ground
It's still love
That makes the world go round

Sometimes even strong hearts wonder
If the time meets far
Really makes a difference when they
See the days go dark

There it comes still happening
They go by but not to dare
To let a hopeless heart now
That we care

It's still love
That makes this world a better place
Just a touch from another heart and
Anything can change
We don't need to look that hard
To find a common ground
It's still love
That makes the world go round

Yeah, it just keeps on
It grips around a single star
It opens farther, hitting harder
Pressing every world

There it comes still happening
They go by but not to dare
To let a hopeless heart now
That we care, (care)

It's still love
That makes this world a better place
Just a touch from another heart and
Anything can change
We don't need to look that hard
To find a common ground
It's still love
That makes the world go round

That makes the world go round
We don't need to look that hard
To find a common ground
It's still love
That makes the world go round
