

## It's Still Love

pureNRG

One more day of waking on this  
Ball that spins in space  
Seeing broken hearts and dreaming  
On a brighter day

Searching deep inside  
For the way that have been through  
Finally found the answer  
But it ain't nothing new

It's still love  
That makes this world a better place  
Just a touch from another heart and  
Anything can change  
We don't need to look that hard  
To find a common ground  
It's still love  
That makes the world go round

Sometimes even strong hearts wonder  
If the time meets far  
Really makes a difference when they  
See the days go dark

There it comes still happening  
They go by but not to dare  
To let a hopeless heart now  
That we care

It's still love  
That makes this world a better place  
Just a touch from another heart and  
Anything can change  
We don't need to look that hard  
To find a common ground  
It's still love  
That makes the world go round

Yeah, it just keeps on  
It grips around a single star  
It opens farther, hitting harder  
Pressing every world

There it comes still happening  
They go by but not to dare  
To let a hopeless heart now  
That we care, (care)

It's still love  
That makes this world a better place  
Just a touch from another heart and  
Anything can change  
We don't need to look that hard  
To find a common ground  
It's still love  
That makes the world go round

That makes the world go round  
We don't need to look that hard  
To find a common ground  
It's still love  
That makes the world go round
