

Oh, oh, oh, oh, oh, oh  
You might think that we're totally different  
Your hair is blue mine's brown, but its ok  
You might think that we're totally different  
I like Miley Cyrus  
I like Kelly Clarkson  
You might think that we're totally different  
I don't really think so maybe in a photo  
I know that underneath  
You just want the same things as me

Like love, like friends like a place to go  
Where you can switch it up, kick it when ur feeling low  
Like fun, like tunes,  
To crank it up  
With a beat so crazy that it makes you jump  
Like hope like faith like something 2 dream  
Like you can see it in your mind like it's all in HD  
Everybody needs somethin like, like  
Everybody needs somethin like, like

You might think that I just don't get you  
Wouldn't understand you anything you go through  
You might think that I wouldn't accept you  
But hold up, wait a minute gotta put some truth in it  
You might think that we're totally different  
I don't really think so, maybe in a photo  
I know that underneath you just want the same things as me

I'm not saying that we're both the same  
You gotta have sun, and u gotta have rain  
Life goes up and life goes down  
We need each other for the world to go round

Like love, like friends like a place to go  
Where you can switch it up, kick it when ur feeling low
