

What If

pureNRG

What if i was a cheerleader
What if i was the girl next door
What if i was a rock star
What if i was something more
What if i was an astronaut
What if i was stuck on the ground
What if i was the president
What if what if

What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything
What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything

What if i was a big time flim star
What if i ran a restaurant
What if i found a cure for cancer
What if i got everything i want
What if i was a fashion model
What if i was a scientist
What if i was a super bowl quarterback
What if i had none of this

What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything
What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything

I think there's too many questions
Of how what we're supposed to be
I think there's just too much pressure
What if somehow everyone could see
What if what if doesn't matter oh oh
What if what if doesn't matter
What if what if doesn't matter
What if we could let the whole world see that

What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything
What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything

What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything
What if what if doesn't matter
What if what if doesn't matter
With your love i can be anything
