What If

What if i was a cheerleader What if i was the girl next door What if i was a rock star What if i was something more What if i was an astronaut What if i was stuck on the ground What if i was the president What if what if

What if what if doesn't matter What if what if doesn't matter With your love i can be anything What if what if doesn't matter What if what if doesn't matter With your love i can be anything

What if i was a big time flim star What if i ran a restaurant What if i found a cure for cancer What if i got everything i want What if i was a fashion model What if i was a scientist What if i was a super bowl quarterback What if i had none of this

What if what if doesn't matter What if what if doesn't matter With your love i can be anything What if what if doesn't matter What if what if doesn't matter With your love i can be anything

I think there's too many questions Of how what we're supposed to be I think there's just too much pressure What if somehow everyone could see What if what if doesn't matter oh oh What if what if doesn't matter What if what if doesn't matter What if we could let the whole world see that

What if what if doesn't matter What if what if doesn't matter With your love i can be anything What if what if doesn't matter What if what if doesn't matter With your love i can be anything

What if what if doesn't matter What if what if doesn't matter With your love i can be anything What if what if doesn't matter What if what if doesn't matter With your love i can be anything
