

# You Move Me

Puressence

Well I know there is something about you girl

Though they say that nobody can change the world  
In your eyes there's a smile  
There's a soothing camomile  
Makes it feel worth my while,  
waiting for you girl

You move me  
You move me  
You move...

I must say I was smitten so long ago  
I got caught pulled right down by your undertow  
Just like the stars always shine  
Just like them you can't be mine  
Sing a sad Valentine all about you girl

You move me  
You move me  
You move...

I know it's time to stop believing  
every part of me is wrong  
I know it's time to start believing  
'cos I need to carry on  
Without you girl

You move me  
You move me  
You move me
