

Monsoons

Puscifer

Valley heat is rising
Relieve us
Long exhale the heavens
Relieve us
Valley heat is rising
Relieve us
Long exhale the heavens
Relieve us

Dry desert touches sky
Prayer for deliverance from on high
Pray, the sky will understand
And cry, and pour emotion down
(heaven relieve us)

Only you can bring the color in
You alone breathe the hope into our world
The patient, pleading ground
Without you, brittle, gray and brown

Only you can bring the color in
So I and mine can carry on to
You can bring the color in
So I and mine can carry on the way

The sky will understand
(heaven relieve us)
And cry emotion pouring down
(heaven relieve us)

Only you can bring the color in
So I and mine can carry on to
You can bring the color in
So I and mine can carry on to
You can bring the color in
So I and mine can carry on another day
