Oceans

Weary traveler, calloused and sore Time and gravity followed you here Rest, my sister, and tell me All about the ocean

I've never seen the ocean Not like this one

Weary traveler, calloused and sore Time and gravity followed you here Rest, my sister, and tell me All about the ocean

Spoils and troubles, they burden you more Pay them no mind, they matter no more Leave them behind and show me All about the ocean

Look in your eyes I've never seen the ocean Not like this one

Deep in your eyes I've never seen the ocean Not like this one

Show me your eyes I've never seen the ocean Not like this one

Look in your eyes I've never seen the ocean Not like this one
