

World Up My Ass

Puscifer

I've got the world up my ass
Gonna move fast
Be the first
Won't be the last
I've got the world up my ass

Society is burning me up
Take a bite, spit it out
Take their rules
Rip 'em up, tear them down

Twisted mind, withered brain
You know I'm going insane
I just tell them to get back
When they tell me how to act
I've got the world up my ass

You know I've got the world up my ass
