

## World Up My Ass

Puscifer

I've got the world up my ass  
Gonna move fast  
Be the first  
Won't be the last  
I've got the world up my ass

Society is burning me up  
Take a bite, spit it out  
Take their rules  
Rip 'em up, tear them down

Twisted mind, withered brain  
You know I'm going insane  
I just tell them to get back  
When they tell me how to act  
I've got the world up my ass

You know I've got the world up my ass
