## **Mexicali Lane**

I still see the Sunday morning light Start again how t used to be Funny that I never realize All through my thoughts away A little dool that was at my side I start to sing a new song Than to hear someone say goodby The day u came along Down in Mexicali lane There's a place where I became So alone I long to hold you one more time Down in Mexicali lane I'll be seeing u again

Till tomorrow I'll be dreaming that you're mine It's the first time that I fell in love Its the last time that I care You'll forever only thinking on Till I hold you again You change my life into a rose overgreen I'll never thought I've been found I tell my friends All where I've been I won't be back no more Down in Mexicali lane There's a place where I became So alone I long to hold you one more time Down in Mexicali lane I'll be seeing you Pussycat
