

## Half

PVRIS

Some days I feel everything, others are numbing  
Can never find the in between, it's all or nothing  
I never, never, never said that I wanted  
I never, never, never, never said I wanted

Never wanted to be here now  
One foot in the grave, other on the ground  
I can't process what I'm feeling now  
This skin I can do without

Half my bones in city streets, the other in my sheets  
And I don't think they'll ever get the chance to meet  
I never, never, never said that I wanted  
I never, never, never said that I wanted

Never wanted to be here now  
One foot in the grave, other on the ground  
I can't process what I'm feeling now  
This skin I can do without  
This skin I can do without

I never, never, never said that I wanted  
I never, never, never said that I wanted  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...

Never wanted to be here now  
One foot in the grave, other on the ground  
I can't process what I'm feeling now  
This skin I can do without

I never wanted a body  
I never, never, never said...  
I never wanted a body  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...  
I never, never, never said...
