

Fighting Is Easy

Q65

when you tell me that you don't love anymore one
I tell you babe you better go
but realize that love is not like a rainbow
you know love is a thing that must grow
fighting is easy why did you tell me that you are leavin'
listen babe first you have to know that I really love you
I promise you girl that I will change my live when
you tell me that you love me
come on let us dance and let us sing just the whole night
and let's talk about love in the moonlight
maybe there comes a time that you will see
that I really try to do my best
I hope that you never forget the first day that you saw me
from that moment you were drivin' me mad
