```
Someday I will dive me in.

Someday I will take a spin.

Someday I will make it right.

Someday I will stop the fight.

It has been thought, it's been thought

I found a god that can teach.

Take me along, once again on that trip.

Bring it on and when I'm gone, bite your lip.

Is it to good to be secure?

Maybe I should, I think I should find the cure.

It's been thought before.

I found a god that can teach.

Someday you will dive in.

Someday you will dive in.

It's been thought before.
```

It's been thought before.
