

# Don't Be Lonely

Quarterflash

Saw you late last night  
You're looking so right  
He thinks he's so sharp in the street light  
But under all of that chic  
I thought I caught a peek  
Of something that resembled a heart

Don't be lonely (Oh, don't be lonely)  
Give me your heart and I'll give you mine  
Don't be lonely (Oh, don't be lonely)  
There's so much love and so little time

I see you looking my way  
There's things you want to say  
There's things you want to tell me, so tell me  
I see no reason to hide  
We're all afraid inside  
We're all afraid to trust somebody

Don't be lonely (Oh, don't be lonely)  
Give me your heart and I'll give you mine  
Don't be lonely (Oh, don't be lonely)  
There's so much love and so little time

No, you never really lose yourself  
You never dare to dance  
But you know you're only half alive  
Unless you're taking a chance

Ooh, baby baby baby once in awhile  
I get to you darlin' and I make you smile  
And for a second I'm all you can be  
So open up darlin' and don't be lonely

Don't be lonely (Oh, Don't be lonely)  
Give me your heart and I'll give you mine  
Don't be lonely (Oh, don't be lonely)  
There's so much love and so little time

Don't, don't oh don't be lonely  
Give me your heart and I'll give you mine  
Don't be lonely (Oh, don't be lonely)  
There's so much love and so little time  
Don't, don't oh don't be lonely  
Give me your heart and I'll give you mine...
