

A Case of No Way Out

Quasi

Birth by birth, we're cast out on this earth,
To a welcome of blood and screams.
Days roll past - any one might be your last
As you run at your fleeting dreams.
And when you're gone, your ghost can carry on.
If you never taste it you don't know what it's about.
If you never face it, you're a case of no way out.
Day and night, darkness and light
You'll be measured by light of day.
but in the end the darkness was your friend.
If you never taste it you don't know what it's about.
If you never face it you're a case of no way out.
They'll give you a fairy tail to take away your doubt
If you just embrace it you're a case of no way out.
