

# They Don't See

Que

They don't see what I see  
They don't believe in u and me  
(They don't see, what I see they don't see what I see)  
They don't feel what I feel  
They're not here when your holdin me  
(They don't feel what I feel, they don't feel what I feel)

We started out as friends then I became ya man  
We went thru situations that started complications  
And also altercations but u were still my lady  
For that I love u baby  
My momma overheard a conversation one day  
Confronted me about it and I didn't know what to say  
Told me I was crazy for having u as my baby  
I didn't pay attention cause I think I'm in love with you

They don't see what I see  
They don't believe in u and me  
(They don't see, what I see they don't see what I see)  
They don't feel what I feel  
They're not here when your holdin me  
(They don't feel what I feel, they don't feel what I feel)

My momma keep tellin u to stop callin  
But only if she knew it was u I was fallin in love with  
(fallin in love with)  
Then she would understand (she would understand that u are my special friend  
)  
She's no angel nobody is  
My piece or my girl somethings gotta give (somethings gotta give)  
Think I'm in love but u don't believe  
With u is where I wanna be girl

They don't see what I see  
They don't believe in u and me  
(They don't see, what I see they don't see what I see)  
They don't feel what I feel  
They're not here when your holdin me  
(They don't feel what I feel, they don't feel what I feel)

[Bridge:]

They don't know whatchu mean to me (The way u hold me, the way u touch me the way u tell me u love me girl)  
All I know is that they can't see (u gotta be my everything whoa)

[with ad libs from Q:]

They don't see what I see  
They don't believe in u and me  
(They don't see, what I see they don't see what I see)  
They don't feel what I feel  
They're not here when your holdin me  
(They don't feel what I feel, they don't feel what I feel)

[Over Chorus:]

They don't know what u mean to me  
The more they try to break us up  
The closer we seem to be

They don't know what u mean to me  
It's like the more they try to hate on us  
The more that we believe
