

Born Free

Queen Ifrica

Long live the memories
Of ma brother gitsey hey

Born free and that's all I'm gonna say I am
A descendant of the earth I nuh pagan
Don't you believe that yuh can take away ma pride
'Giddeon boot kick yuh mek yuh slide

Firm inna ites I guh seek haila mount 'ion
Neva wanna get caught in dem corruption
A new set a free generation a rise up
And to I dat is enough

If a neva fi di one missa big poverty wouldn't be
And all who a fight inna earth should agree
A nuh one a nuh two, every nation a plea
And all dem a ask is a chance to be free
Uh huh

Leave those refugees
They only wanna save their families

War have made them very unhappy
Yuh better mek ammends and make it snappy
May day may day do you copy
Pick up the phone you're acting crappy

Come to di children rescue
You can run dem or let dem get you
I dis here fi keep and care dem
So just give us what we need
Don't tell us you're not willing
Cause it's just because of greed
