

Fast Car

Queen Latifah

Fast car, fast car
I wanna meet your fast car
take me on a comet ride,
shoot me past the fast car
i wish i owned that last car
you could be the end to
everything my hearts asking for.

take me away
(so, so, far away)
i dont wanna feel no sorrow
take me away
(so, so, far away)
i might not see tomorrow.

(hey, Hey)

(Chorus)
You tell me you can cure my addiction (addiction)
and you tear my feet off the ground
everytime i would forget my affliction (affliction)
but i dont want to come down

it's just the high that your givin' me (givin' me)
is worth a million tears and frowns
it's just the high that your givin' me (givin' me)
is worth a million years on the ground.

take me up in your rocketship
tak me so so far away. (away)
let me forget all the good shit
take me so, so far away (away)

i need a face thats not mine that fits me
just get me to forget misery
yes indeed we just be
in misery yes indeed
we just be up high

when im with you x2
(chorus)

You tell me you can cure my addiction (addiction)
and you tear my feet off the ground
everytime i would forget my affliction (affliction)
but i dont want to come down

it's just the high that your givin' me (givin' me)
is worth a million tears and frowns
it's just the high that your givin' me (givin' me)
is worth a million years on the ground.

(missy elliot)

you remind me of my mercedez benz
for you i spend all my years
you might wanna meet my friends
and i might wanna have your kids

i name 'em
shaniqua
bonita
rashawn
and baby you can take me far away
see the moon and the stars
now can't nobody do it like you do (what?!)
i admit you got to go (what?!)
me and you, just us two
spread my love like a swine flu
ay.. you got me high
wanna touch the sky
you know you love me right?
lets sing this lullaby
yeah you could be my fast car
maybe be my jaguar
baby what you isn't are
make me see the moon and stars
i wanna touch the moon
get some of this poom, poom
ride it like zoom, zoom
make him drop this fruit of the loom
he want my peach fair
victoria underwear
i love em, oh so swell
and yepp he love my fruit cocktail
i keep it real baby

(chorus)

You tell me you can cure my addiction (addiction)
and you tear my feet off the ground
everytime i would forget my affliction (affliction)
but i dont want to come down

it's just the high that your givin' me (givin' me)
is worth a million tears and frowns
it's just the high that your givin' me (givin' me)
is worth a million years on the ground.
