

Back Chat

Queen

Yeah

Get back get back

1. Back chat back chat
You burn all my energy
Back chat back chat
Criticizing all you see
Back chat back chat
Analysing what I say
Back chat back chat
And you always get your way

Oh yeah! See what you've done to me

2. Back chat back chat
It's driving me insane
Survival to the end
Knock you down you come again
Talk back talk back
You've got me on the wrack
Twisting every word I say
Wind me up and get your way

Fat chance I have of making a romance
If I'm ever goin' to win
Have to get the last word in
Take it from there
Twisting every word I say Huh!
Wind me up and let me play

3. = 1.

Come on now
Wake up stand up
And drag yourself on out
Get down get ready
Scream and shout
Back off me be cool
And learn to change your ways
'Cause you're talking in your sleep
And you're walking in a daze
Don't push your luck
I'm ready to attack
'Cause when I'm trying to talk to you
All you do is just talk back
You stand so tall you don't frighten me at all
Don't talk back don't talk back
Don't talk back just leave me alone

4. = 1.

Yes you do

Come on back chat back chat

Critisizing (oh yeah), analysing (oh yeah)
Yeah merci beaucoup
