

I Can Hear Music

Queen

1. This is the way I always dreamed it would be
The way that it is, oh no, when you are holding me
I never had a love of my own
Maybe that's why when we're all alone

R: I can hear music, I can hear music
The sound of the city, baby, seems to disappear, oh well
I can hear music, sweet sweet music
Whenever you touch me, baby, whenever you're near

2. Loving you, it keeps me satisfied
And I can't explain, oh no, the way I'm feeling inside
You look at me, we kiss and then
I close my eyes and here it comes again

R: I can hear music, I can hear music...

I can hear music, sweet sweet music
Whenever you touch me baby, whenever you're near...
