

## Broken Box

Queens of the Stone Age

I've got wine & so do you  
Mine came with a cork  
I wish yours did too

Everyone just loves you so  
Well hurray!  
Now you know where to go

In my head you're all brand new  
I guess you're really all the same  
In my head you're all brand new  
Tell your new boy where i came  
In my head you're all brand new  
I just didn't want what you gave  
In my head you're all brand new  
Go & find yourself another slave

There you are  
Ooohh you're so in love, just like juliette  
Well guess what?  
That's one thing that you can for-fucking-get

Tears from the sky  
In pools of pain  
Well baby tonite, i'm gonna go & dance in the rain

In my head you're all brand new  
I guess you're really all the same  
In my head you're all brand new  
Tell your new boy where i came  
In my head you're all brand new  
Take that broken pussy elsewhere  
In my head you're all brand new  
Save it baby, i don't care
