

Everybody Knows That You Are Insane

Queens of the Stone Age

You wanna know why you feel so hollow?
Because you are.
You're missing out? Well if you say so
Then you're missing out

Everybody knows that you are insane
You wanna know just how long you can hide from what you are?
Not very long
I have been lost. Down every road i follow out in the dark
On my way home

But i feel nothing. Am i better yet?

Everybody knows that you are insane
