

# God Is in the Radio

Queens of the Stone Age

I thought I saw him on the video  
A trance is keeping him under  
I know that god is in the radio  
Checkin the station  
I'm glad I caught it from me to you  
Just a call in the medium  
I know hear it, I hear it too  
It's everywhere that I go

You come back another day  
And do no wrong

The say the devil is paranoid  
Always signin the cover  
But god is leakin through the stereo  
Between the station to station  
You believe it, I know you do  
You won't admit it or say so  
I know that god is in the radio  
Just repeating a slogan

You come back another day  
And do no wrong
