

## Walkin on the Sidewalks

Queens of the Stone Age

Got some action on the other side  
Loose teeth in my head  
New programs are coming in  
So rise and take your oath  
I wish we could get away  
Drink wine and screw  
I knew someone else before  
Looked alot like you

And they're gone  
I'm gone  
In space

I been prograded as I said before  
Technology  
Just rollin, wheezin and breathin  
Eyeballs and teeth  
Words are weightless here on earth because they're free  
You knew someone else before  
Looked alot like me

And they're gone  
I'm gone  
In space  
(2x)
