

Walkin on the Sidewalks

Queens of the Stone Age

Got some action on the other side
Loose teeth in my head
New programs are coming in
So rise and take your oath
I wish we could get away
Drink wine and screw
I knew someone else before
Looked alot like you

And they're gone
I'm gone
In space

I been prograded as I said before
Technology
Just rollin, wheezin and breathin
Eyeballs and teeth
Words are weightless here on earth because they're free
You knew someone else before
Looked alot like me

And they're gone
I'm gone
In space
(2x)
