

Changes

Queensberry

Life is gonna show you
The lessons that you learn
And there's stories left behind you
But the page has yet to turn

And it's true what they say
Nothing ever says the same
And you begin to see as time goes by

Chorus:

That we change and we grow
And no matter how we try
Sometimes we fall
So have faith never wait too long
'Cause too long might be too late
And tomorrow is too fast away

Well there's signs all around you
Be patient don't give in (move close)
Someone's gonna find you
Let a whole new day begin

There's a long way to go
Don't look back until you're home
Cause you'll never know if you don't

That we change and we grow
And no matter how we try
Sometimes we fall
So have faith never wait too long
'Cause too long might be too late
And tomorrow is too fast....

Away

Yeah we try to hide it
You wonder how you'll face the world today
Reach out, when it's real you'll feel it
Jump in the fire, live with desire
You can't rest, why wait another day

That we change (we change) and we grow (we grow)
And no matter how we try
Sometimes we fall (no matter how we try)
So have faith never wait too long
'Cause too long might be too late (too late)
And tomorrow is too fast away
tomorrow is too fast away
