

Love On The Radio

Queensberry

I need love like a hole in the head
I need love better take me to bed
And get close, but if you're touch me you're dead
Oh oh
I need love, but I love to hate
And when I'm ready don't you hesitate
I need love, but don't complicate
Oh oh

Capture my imagination
Be my, my infatuation
Tensions drive you outa your mind
But oh oh oh you know you like it

I need love baby oh oh oh
I want love and Oh I want you to know
I need love on the radio
I need love, want love
A love overload

It's too late, you can't turn back now
I need love anywhere, any how
Before I blow like a safety valve
Oh oh

Caught up in my fascination
Under my, my Intoxiation
Chaos starts to alter your mind
But oh oh oh you know you like it

I need love baby oh oh oh
I want love and Oh I want you to know
I need love on the radio
I need love, want love
A love overload

I need love, want love, crave love
On the radio (on the radio, on the radio)
I need love, want love, crave love
On the radio (on the radio, on the radio)

I need a hit baby
Just flick the switch baby
Hust tune me in won't ya
On the radio... on the radio... on the radio

I need love baby oh oh oh
I want love and Oh I want you to know
I need love on the radio
I need love, want love
A love overload

I need love, want love, crave love
On the radio (on the radio, on the radio)
I need love, want love, crave love
On the radio (on the radio, on the radio)
