

Real World

Queensrÿche

Strange, the view from here
Words we spoke, forgotten at the time
Now replay in my mind
What went wrong, what was right?
Looking back, "I never was there for you"
You didn't say, but I know it's true

I can't find the real world alone
Every time I think I've won
I hear your voice inside, questioning me
Where have you gone?
Can't you remember feeling so alone
You always had the answer that I could not see

I can't find the real world
I can't find the real world
I can't find the real world alone
I can't find the real world
I can't find the real world
I can't find the real world alone
