

But Strong Together

Quidam

I'm so excited
We'll surely make it to the top
With music that we make
I'm so delighted
Can't wait to read you're loving it
That's how it's got to be

Then a slap in the face
You took it apart
I think I might break down and cry
I feel so defeated
In your eyes
I see my demise
The anchor you cast
And now I'm going down
Dig a grave for me please

They're preying on me
Don't ask me to approve of that
Don't think I will consent
They want to destroy me
Go ahead and try
Do your best
You're always right

Again a slap in the face
You took it apart
I think I might break down and cry
I feel so defeated
In your eyes
I see my demise
The anchor you cast
And now I'm going down
Dig a grave for me please

The only thing I want to say
Is that we're strong together
And I don't care what you claim
It must be whiteout in your brain
And you can't see clearly
Leave me be, go away
