

We Are Alone Together

Quidam

You are like a paper boat put by a child on quiet waters
Swim up to me
Touch the shore of my awareness gently
Nobody knows about us... and nobody else
What can I do? what can I say?
I've been waiting all my life for you
For such moment
Your photograph... you're smiling an encouraging smile
Your eyes looking at me they say it is worthwhile
The dream of our interlaced breaths
I'm pondering the thoughts that tread a path for the

Deeds
We are together alone
I brought you a box of chocolates... and you... ?
You switched off our world
I can't see anything in our silhouettes anymore
And you'll never make use of me again
You and me like a city of twisted streets
Our life - the universe of broken dreams
Smile to hide the pain
Aren't we a little bit alone?
Now enjoy the moment
Enjoy loneliness
