

# Don't Think

Quiet Riot

You sucked religion from my life  
When we met I believed you were hell  
take the knife from my back  
I know you'll use it again  
Don't Think Of Me  
I won't think of you  
Don't Think Of Me  
I won't think of you  
You don't give  
You just take  
You don't give  
You just break

We were never friends  
a one act play  
I had to stop pretending  
My heart don't ache since you've been gone  
It's we never met  
Don't Think Of Me  
I won't think of you  
Don't Think Of Me  
I won't think of you  
You don't give  
You just take  
You don't give  
You just take

My time and my money but money ain't love no  
The evil within shines without a light  
I know what I see and I mean what I say
