

## Terrified

Quiet Riot

In the arms of a falling knight  
I run from the voices right behind me  
And I look and there's no one there  
But the fear is everywhere around me  
It surrounds me

And I'm terrified  
I really don't know which way to run or where to hide  
Yes I'm terrified  
Of the dirty deeds and dreams I've left behind  
Whoah, whoah  
Whoah, whoah

When I think of the things I've done  
I know I'll still be on the run tomorrow  
There's a strange feeling in the air  
On the road that I'm too scared to follow  
And I know  
That I'm terrified  
I really don't know which way to run or where to hide  
Yes I'm terrified  
Of the dirty deeds and dreams I've left behind  
I'm terrified  
And I don't know where to hide

It's too late to change my mind  
Cause I feel that there is where they'll find me  
There's a place that I once called home  
Now I can't return, I'll be alone  
Forever

Terrified  
I really don't know which way to run or where to hide  
Yes I'm terrified  
Of the dirty deeds and dreams I've left behind  
Yes I'm terrified  
There's nowhere to run, nowhere to hide  
Whoaah, I'm terrified  
Scared of the dark  
Scared of the light
