

# Whatever It Takes

Quiet Riot

Dancing on a tightrope  
Walking with the moonshine  
Sneaking up the wrong road  
Making up an alibi

Clawing, scraping, living ain't easy  
Looking for a friend  
Dancing madly backwards and forwards  
Searching for the bend

Keep on rollin', let it flow  
Got a feelin' I want you to know  
Rock the river, shake the lake  
We're gonna do whatever it takes

Making no apologies  
Out of mediocrity  
I'm feelin' like a dynamo  
With no particular place to go

Good times, bad times, nothing can stop me  
Got the will to survive  
Get up, stand up, won't be afraid of  
All the fear that's inside

So keep on rollin', let it flow  
Got a feelin' I want you to know  
Rock the river, shake the lake  
We're gonna do whatever it takes

In the corner, holding court  
There's a fever we all sport  
Rock the river, shake the lake  
We're gonna do whatever it takes  
Whatever it takes

Clawing, scraping, living ain't easy  
Looking for a friend  
Dancing madly backwards and forwards  
Stop!

Keep on rollin', let it flow  
Got a feelin' I want you to know  
Rock the river, shake the lake  
We're gonna do whatever it takes

In the corner, holding court  
There's a fever we all sport  
Rock the river, shake the lake  
We're gonna do whatever it takes  
Rock the river, shake the lake  
We're gonna do  
Nothing to lose every days

Think I want  
Shake for me  
Baby, Mamamamamama

Living in the fantasy  
In the all
