

ALL THIS TIME

Quietdrive

All this time
I've waited for nothing
All of the things I think I need
Never make me feel complete
Say what you're thinking
While I'm only dreaming
But the words that you're speaking
Only break my heart
All this time
I've waited for nothing (I've waited for nothing)
When I could spend all this time
Looking for something like our love (Looking for
something like our love)
Maybe, I'll keep a key aware
Maybe I'm off and leave this town
Maybe tomorrow I'll find someone that I'll love
Every night
I sleep
But I keep waking
To the sounds
That I hear
Maybe you're finally coming home
To say what you're thinking
While I'm only dreaming
But the words that you're speaking
Only break my heart
All this time
I've waited for nothing (I've waited for nothing)
When I could spend all this time
Looking for something like our love (Looking for
something like our love)
Maybe, I'll keep a key out aware
Maybe I'm off and leave this town
Maybe it's better to just sit and wait
Maybe tomorrow, maybe tomorrow
Maybe tomorrow I'll find someone that I'll love
I'll find someone that I'll love
I'll find someone that I'll love
