## Deliverance

Make believe If you're sick of everything All the time before us Doesn't taint my memory When the walls they put around us Can't stop what we believe When the love we share forgets us This dream will set us free (So please don't tell me) Deliver me, deliver me When the walls they put around us Can't stop what we believe When the love we share forgets us This dream will set us free (So please don't tell me) Deliver me, deliver me (So please don't tell me) If it's up to me, if it's up to me I've had it once and now I want it again (I've had it once and now I want it again) I've had it once and now I want it again (I've had it once and now I want it again) (So please don't tell me) If it's up to me, if it's up to me I've had it once and now I want it again (I've had it once and now I want it again) I've had it once and now I want it again (I've had it once and now I want it again) When the walls they put around us Can't stop what we believe When the love we share forgets us This dream will set us free (So please don't tell me) Deliver me, deliver me (So please don't tell me) If it's up to me, if it's up to me I've had it once and now I want it again (I've had it once and now I want it again) I've had it once and now I want it again (I've had it once and now I want it again)
